Facilities being accorded in FIEDMC industrial estates

By our correspondent

FAISALABAD: Faisalabad Industrial Estate Development & Management Company (FIEDMC) BOD chairman Zafar Iqbal Sarwar Monday said best possible facilities were being accorded in different industrial estates.

Presiding over the 118th Board meeting, Zafar Iqbal Sarwar welcomed the newly appointed Chief Executive Officer (CEO) Manzar Javed Ali and expressed hope that he would give productive input for the early and speedy colonisation of industrial estates.

He also explained the progress on the decisions taken during the last Board meeting and said federal and provincial governments were extending full cooperation to provide electricity, gas, and other utilities in addition to the provision of other basic and fundamental facilities.

He expressed hope that these measures would yield positive results as FIEDMC was in touch with the government for the early completion of the under-construction projects and works.

The BOD also sanctioned different development and construction-related projects.

Zafar Iqbal expressed hope that a positive improvement would be visi-

ble in the FIEDMC which would also spur the industrial, commercial, and economic activities in this region.

Regarding FDI, he said our focus was to attract maximum foreign investment and in this connection, the apprehension of foreign companies would be redressed on a top priority basis by providing them much-needed confidence and security.

He said the entire team of FIEDMC was exploiting its best capabilities to reactivate and play its pivotal role in providing all basic and fundamental facilities at the doorstep of industrial units established in the different industrial zones of the FIEDMC.

'Best facilities on offer in industrial estates developed by FIEDMC'

Staff Report

FAISALABAD: Faisalabad Industrial Estate Development and Management Company (FIEDMC) Board of Directors (BoD) Chairman Zafar Iqbal Sarwar said Monday best possible facilities were being offered in different industrial estates developed by the company.

Presiding over the 118th board meeting, he welcomed the newly appointed CEO Manzar Javed Ali and hoped that "he would give productive input for the early and speedy colonization of industrial estates." He also briefed about the progress on decisions taken during the last board meeting and said that federal and provincial governments are extending full cooperation to provide electricity, gas and other utilities in addition to the provision of other fundamental facilities.

He hoped that these measures would yield positive results as FIEDMC

was in touch with the government for the early completion of the under-construction projects and works. The BOD also sanctioned different development and construction-related projects.

Sarwar hoped that an improvement would be visible in the FIEDMC which would also spur the industrial, commercial and economic activities in this region. Regarding the FDI, he said, "Our focus is to attract maximum foreign investment, and in this connection, the apprehension of foreign companies would be redressed on a priority basis by providing them much-needed confidence and security."

Sarwar said that the entire team of FIEDMC was exploiting its best capabilities to reactivate and play its pivotal role in providing all basic facilities at the doorstep of industrial units established in the different industrial zones of the FIEDMC.
